NOSRAM LiPo 5300 X-treme Hardcase - 40C - 7.4V

Now NOSRAM brings out a new dimension of X-treme LiPo Hardcase batteries. With the new 5300 - 40C, NOSRAM offers a completely new level of performance never seen before.

40C

Using all the latest LiPo development breakthroughs, the NOSRAM 5300 - 40C is specially developed for maximum power delivery and lowest internal resistance. Mounted in a red transparent hardcase to keep the cells from being damaged during use, In addition to that the hardcase features sub-c bulges for perfect and secure chassis fit into any 1/10th scale onroad or offroad car.

Features:

- Race legal (complying to ROAR / EFRA rules)
- Durable hardcase for highest safety
- Connectors fit from both sides
- Sub-C bulges for perfect fit into pre-cut and non pre-cut chassis
- 4mm gold connectors
- 2mm balancing connectors
- Same dimensions as standard 6 cell sub-c pack
- Highest safety through certified UN-test
- Attractive design due to its transparent case, direct view on the inner life of the cell
- Can be charged with up to **3C charge current** to for extremely low charging time - a new benchmark in LiPo technology.

Capacity	5300
C-Rate	40C
Voltage	7.4 - 2S
L x W x H	139x47x23.5mm
Style	6-cell Sub-C Stickpackhardcase
Weight²²	288.0g
